

How to access standards

Please follow this step by step guide to retrieve standards.

Go to www.astm.org

The screenshot shows the ASTM International website in a Windows Internet Explorer browser window. The browser's address bar displays the URL <http://www.astm.org/>. The website's header includes the ASTM International logo, a search bar with a dropdown menu set to "All", and navigation links for "LANGUAGES", "CONTACT", "CART (2)", and "MYASTM". A main navigation bar features "PRODUCTS AND SERVICES", "GET INVOLVED", "ABOUT", and "NEWS".

The main content area is dominated by a large image of cyclists in blue jerseys. A "Get Involved" call-to-action box is overlaid on the image, stating: "ASTM enables you to develop the standards for your industry through a unique, open process. Learn more". To the right, a yellow "Buy Standards" box offers to download or order standards directly from the website, accompanied by a book icon. Below this is a "Quick Links" section with links to "Standards & Publications", "Membership", "MyASTM Login", "Technical Committees", and "Meetings".

Below the main content, there are sections for "Featured Products" and "Latest News From ASTM". The "Featured Products" section highlights the "SEDL - Digital Library" as a collection of industry-leading standards and technical engineering information. The "Latest News From ASTM" section features a headline about "Automated Guided Vehicles" and a sub-headline for "Proposed Standard for Shale Oil and Gas Hydraulic Fracturing Operations to Provide Best Practices for Data".

The browser's taskbar at the bottom shows the Windows Start button, several application icons, and the system tray with the date and time: 3:23 PM, 9/16/2013. The browser's status bar indicates "Trusted sites | Protected Mode: Off" and a zoom level of 125%.

Click on “My ASTM”.

ASTM F2993 - 13 Standard Guide for Monitoring Weather Conditions for Safe Parasail Operation (Withdrawn 2015)

Withdrawn Standard

This guide covers monitoring weather conditions for safer parasail operation. Formerly under the jurisdiction of Committee F24 on Amusement Rides and Devices, this guide was withdrawn in January 2015 and replaced by Practices on Parasailing. For referenced ASTM standards, visit the ASTM website, www.astm.org, or contact ASTM Customer Service at service@astm.org. For Annual Book of ASTM Standards ... More
